# **SEMAPRO 2022**

## **Forward**

The Sixteenth International Conference on Advances in Semantic Processing (SEMAPRO 2022), held between November 13 and November 17, 2022, continued a series of events that were initiated considering the complexity of understanding and processing information. Semantic processing considers contextual dependencies and adds to the individually acquired knowledge emergent properties and understanding. Hardware and software support and platforms were developed for semantically enhanced information retrieval and interpretation. Searching for video, voice and speech [VVS] raises additional problems to specialized engines with respect to text search. Contextual searching and special patterns-based techniques are current solutions.

With the progress on ontology, web services, semantic social media, semantic web, deep web search /deep semantic web/, semantic deep web, semantic networking and semantic reasoning, SEMAPRO 2022 constituted the stage for the state-of-the-art on the most recent advances.

We take here the opportunity to warmly thank all the members of the SEMAPRO 2022 technical program committee, as well as all the reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors that dedicated much of their time and effort to contribute to SEMAPRO 2022. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

We also gratefully thank the members of the SEMAPRO 2022 organizing committee for their help in handling the logistics and for their work that made this professional meeting a success.

We hope that SEMAPRO 2022 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the field of semantic processing. We hope that Valencia provided a pleasant environment during the conference and everyone saved some time to enjoy the charm of the city.

#### **SEMAPRO 2022 Chairs**

#### **SEMAPRO 2022 Steering Committee**

Fabio Grandi, University of Bologna, Italy
Sandra Lovrenčić, University of Zagreb, Croatia
Michele Melchiori, Università degli Studi di Brescia, Italy
Wladyslaw Homenda, Warsaw University of Technology, Poland
Tim vor der Brück, Lucerne University of Applied Sciences and Arts, Switzerland
Els Lefever, LT3 | Ghent University, Belgium
Sofia Athenikos, Twitter, USA

### **SEMAPRO 2022 Publicity Chair**

Mar Parra, Universitat Politecnica de Valencia, Spain Sandra Viciano Tudela, Universitat Politecnica de Valencia, Spain
