

ICQNM 2016

Forward

The Tenth International Conference on Quantum, Nano/Bio, and Micro Technologies (ICQNM 2016), held between July 24-28, 2016 in Nice, France, continued a series of events covering particularly promising theories and technologies. The conference covered fundamentals on designing, implementing, testing, validating and maintaining various kinds of materials, systems, techniques and mechanisms related to quantum-, nano- and micro-technologies.

We take here the opportunity to warmly thank all the members of the ICQNM 2016 technical program committee, as well as the reviewers. We also kindly thank all the authors that dedicated much of their time and effort to contribute to ICQNM 2016.

We also gratefully thank the members of the ICQNM 2016 organizing committee for their help in handling the logistics and for their work that made this professional meeting a success.

We hope ICQNM 2016 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the area of Quantum, Nano/Bio, and Micro Technologies. We also hope that Nice, France provided a pleasant environment during the conference and everyone saved some time enjoy the beautiful French Riviera.

ICQNM 2016 Advisory Committee

Vladimir Privman, Clarkson University - Potsdam, USA
Christian Kollmitzer, AIT Austrian Institute of Technology GmbH, Austria
Victor Ovchinnikov, Aalto University, Finland

ICQNM 2016 Research/Industry Chairs

Marco Genovese, Italian Metrological Institute (INRIM) -Torino, Italy
Keiji Matsumoto, National Institute of Informatics, Japan

ICQNM 2016 Special Area Chairs

QSEC

Masahito Hayashi, Nagoya University, Japan

Fluidics

Alireza Azarbadegan, University College London (UCL), UK

Quantum algorithms and quantum complexity

Francois Le Gall, The University of Tokyo, Japan

Quantum control

Daoyi Dong, University of New South Wales, Australia
